## **Services provided by La Cámara:**

### **Trade fairs and exhibits**

We offer our members the opportunity to participate in various Philippine professional trade fair exhibitions under subsidized rates. Members have access to the chamber's data bank of actual and up-to-date inquiries and offers, and are included in the data banks of counterpart associations and chambers in Spain.

### **Events**

We hold fellowship lunches and once in a while invite some keynote speakers to discuss some current issues. La Cámara also organizes, supports and fosters product exhibition, samplings of Spanish products in the Philippines and the sending of samples of Philippine products to the commercial exhibitions that are organized in Spain.

### **Web page**

La Cámara's web page provides information such as the services offered, a brief profile of its members, news bits, general information on Spain and the Philippines and other topics of interest.

### **Publications**

La Cámara publishes a bi-annual member's directory. This directory is aimed for distribution in countries, Spain and the Philippines, thereby offering the opportunity to widen exposure and access in the business communities of both markets. Relevant commercial publications and documents received from our Spanish counterpart organizations and the Spanish import institute (ICEX) will also be made available to our members on a regular basis.

Our newsletter El Galeón contains economic information, commercial offers and inquiries, legislation and other information which may be considered interesting.

### **Market intelligence**

La Cámara can also assist its members in their market intelligence requirements, including information about the Spanish and Filipino companies as well as products for import or export.

### **Translation**

We can put you in contact with the right professional for your translation requirements.
